

Nick

Fan

NICK – quiet & powerful

Touch-sensitive control panel with 10 speed levels

Oscillating mode for even distribution of the airflow

Remote control and convenient carrying handle

Natural Breeze mode simulates natural wind conditions

Protection from dust and coarse particles thanks to washable air inlet filter

The quiet fan Nick offers 10 speed levels and provides refreshment on hot days. Whether a gentle breeze or a strong wind is needed – the tower fan leaves nothing to be desired. With his super quiet operation, Nick is also suitable for rooms such as bedrooms, children's rooms or offices. The natural bamboo on his sides makes Nick an elegant home accessory. Thanks to his slim design, the fan takes up little space. Quiet, reliable and there when you need him.
